

# My title\*

My subtitle if needed

First author

Another author

March 7, 2024

First sentence. Second sentence. Third sentence. Fourth sentence.

## 1 Introduction

You can and should cross-reference sections and sub-sections. We use R Core Team (2023) and Wickham et al. (2019).

The remainder of this paper is structured as follows. Section 2....

## 2 Data

//sum up gen survey and the questions intended to ask Background about the GSS.

Backgroundabout the sampling methodology

Background about the questions that are asked.

Plot each variable of interest and add discussion around them.

Some of our data is of penguins (Figure 1), from Horst, Hill, and Gorman (2020).

Talk more about it.

And also planes (Figure 2). (You can change the height and width, but don't worry about doing that until you have finished every other aspect of the paper - Quarto will try to make it look nice and the defaults usually work well once you have enough text.)

Talk way more about it.

---

\*Code and data are available at: [LINK](#).

Figure 1: Bills of penguins

Figure 2: Relationship between wing length and width

### **3 Results**

Our results are summarized in.

### **4 Discussion**

#### **4.1 First discussion point**

If my paper were 10 pages, then should be at least 2.5 pages. The discussion is a chance to show off what you know and what you learnt from all this.

#### **4.2 Second discussion point**

#### **4.3 Third discussion point**

#### **4.4 Weaknesses and next steps**

Weaknesses and next steps should also be included.
